## 01. INTRODUCTION

Modules in width up to 5500 [a]

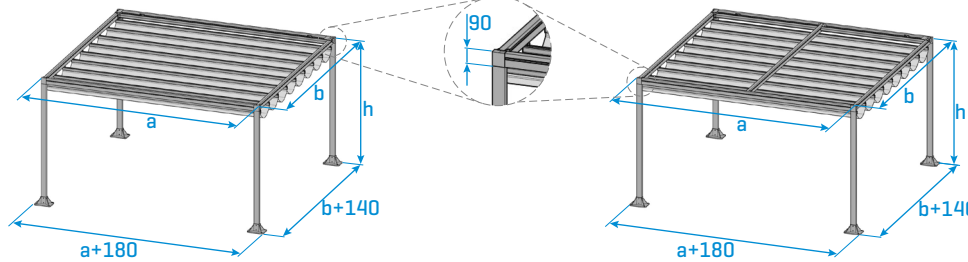

Modules in width up to 6000 [a]

For a width greater than 5500mm, you need a support in the middle as shown in the figure to the side.

Height **h** is a total measurement with a standard height of 2500mm [column 2410mm + fixed profile value 90mm].

**Maximum dimensions:**  
Width **a**: 6000 mm  
Projection **b**: 6000 mm

[Dimensions shown in mm]

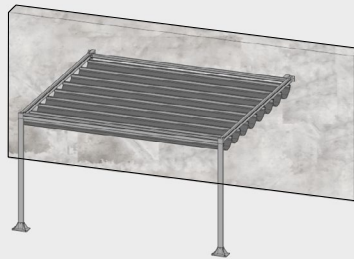

## 02. INSTALLATION TYPE

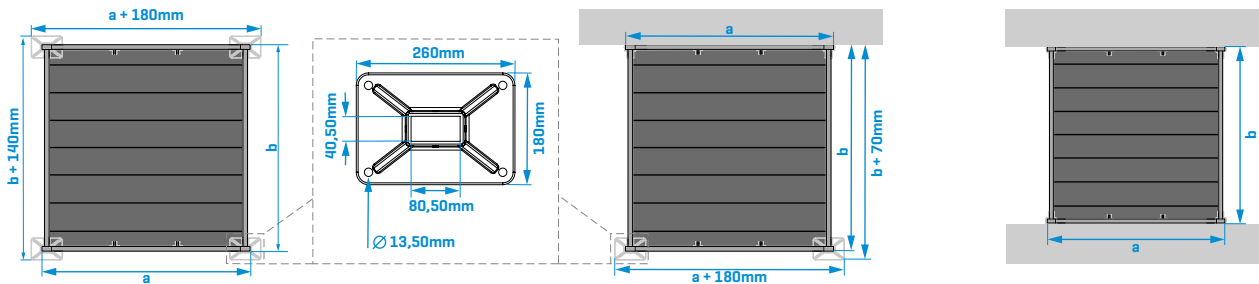

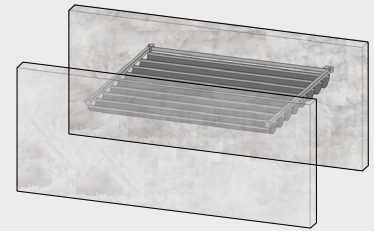

Simple module with 4 columns

Simple module with 2 columns and wall

Simple module between walls

**Dimensions A, B, and H are total measurements of the profile.** If the chosen installation requires columns, you will have to take into account the foundation measurements for **dimensions A and B** and the profile measurement for **dimension H**, as indicated in the figures and descriptions above.

## 03. INSTALLATION MEASURES

[COMPLETE THE FIELDS WITH THE MEASUREMENTS YOU WANT FOR YOUR PERGOLA]

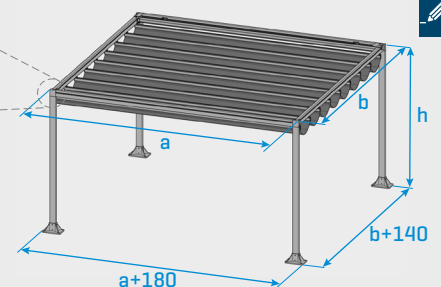

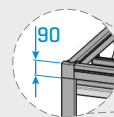

**Indicate the measurements [mm]:**

Indicate the following measurements for the production of the awning.

Total Width **a** [Required]:

Total Projection **b** [Required]:

Total Height **h** [Standard 2500\*]:

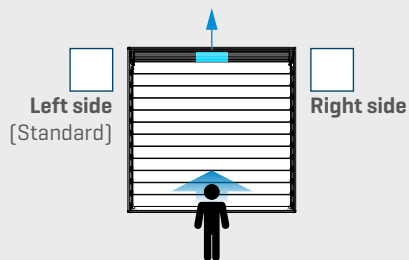

\* Depending on the type of installation [4 or 2 columns], if you leave the field empty, the height will be standard with the measurements of the column 2410mm + Profile 90mm.

## 04. MOTOR SIDE

[SELECT APPLICATION SIDE OF THE MOTOR]

 Check the side you want the motor to be used on.

## 05. FABRIC AND COLOR

[FILL IN THE EMPTY FIELDS]

 Mandatory filling!!

### FABRIC TYPE

Reference:

[fill in the fabric type reference]

Ex: Plains, Striped, Soltis

### FABRIC COLOR

Reference:

[fill in the reference of the desired color]
